**Strengthening cooperation to
address socio-environmental
challenges of EUSAIR flagship
PET HAB ECO**

**This project is supported by the
Interreg IPA ADRION programme under
the Interreg Funds (European Regional
Development Fund and IPA III)**

The 4PETHABECO project aims to preserve the populations of large carnivores by testing innovative solutions and jointly implementing pilot actions for their protection, the reduction of coexistence conflicts and restoration of their habitats, especially through the strengthening of green infrastructure and the improvement of ecological connectivity. The long-term effects of the project will be ensured through the co-creation of joint strategies and action plans of the Adriatic-Ionian area for innovative large carnivore habitats management to improve coexistence. Project results will also support the EUSAIR cross-border flagship PET HAB ECO aims.
